I have been tattooing for 27 years, but still enjoy learning new tricks and techniques. I am thankful to be working alongside a great team at McNabb's Tattoo & Fine Art.

I'd say my favorite kind of tattoos to create are black and white tattoos and portrait tattoos; but really I love tattooing anything, and anyone I can get his hands on!

Eric Hansen

I'm 38 years old and have had a passion for art since I was about 5 years old. I loved seeing the art everyone else was doing and would always search for a way to make it my own. I would do spin-offs of the greats like Salvador Dali and create something unique that was my own. 2015 was the year I began looking at making a career out of my artwork. I focused my energy on creating bigger pieces that would get noticed and stand out from the crowd.

In 2016 with Paul as my mentor I began tattooing full time and haven't looked back. Through his guidance, I have a career that I love and a way to support my family that still affords me plenty of time to be a active and present father to my two daughters. My favorite style of tattoo is black and grey, and realism but love a challenge of cover-ups.

Jimbo Ermiño

Jimbo first began tattooing in central California in 2005 where he was lucky enough to score a traditional apprenticeship at the age of 17. Although he began tattooing in 2005, it wasn't until 2018 that he started tattooing full time at Lady Liberty Tattoo in St.

Paul Park Minnesota. From working construction to spending 4 years working for Tesla he made the jump away from corporate world and into his

first love. While being well versed around the board with many different styles he is known for his bright color work and his stark deep black abstract tattoos. Inspired by art movements in European countries and others over seas he strives to incorporate his own vision into his work to make it stand out as noticeably his own.

Lindsay Machin

My name is Lindsay Machin, living in the lovely Clarksville TN. I've been modeling for 9 plus years now. I got started back when I was like around 10 years old, I had my first runway fashion shoot, where I meet Lindsey Keys who was a very well known model over seas. After I became 18 and joined

the Army, I got into tattoos and modeling even more. Years go by and I met an incredible tattoo artist name Mike Leon, who is the owner of Death do us part tattoo shop. He's done two peices on me. 1. Left arm (half sleeve), this peice was designed by Mike but, it reminds me of home (California). 2. Both breast

(spider webs) which signifies the dark and mysterious side of me. Soon the actual spider will be going on my chest. Every tattoo peice on my body has a story behind them. My biggest goal in life is to keep modeling to show anything is possible if u don't give up on your dream.

Hey, my names Linds. I'm an inspiring model with a huge heart. I have a insane love and obsession with animals and reptiles as well as art and make up. I'm an amateur make up artist and model with my own style and love making a colorful statement. My world has been full of dark experiences , but I have always turned them into something light. My goal is to one day be a social worker/psychologist for those in need. I have a chronic illness

called endometriosis and depression, but I don't let it stop me! I wanna be able to help all those in the same situation one day. Getting into modeling has finally made me feel beautiful and I want to share it with the world!

hi It has always been a dream of mine to become a tattoo model. I'm currently working on my suit. Most of my tattoo work is from prison. But I have working on a couple projects myself which one is a blackout sleeve, my legs and my stomach. I have

so many places to cover but my idea is upper half Chicano style and lower half all Polynesian tribal. If I could I would go through a tap out session and can guarantee I ain't tappin out. But I would love to be part of your magazine.

People who have known me for a while know that I have "done it all" from the food service business to veterinary sciences but it wasn't until I started working in the this industry and was able to finally let my artistic side shine though that I truly became happy. Art has always had a major influence in my life and I can honestly say I love what I do and wouldn't change a thing about it! I feel blessed to be able to do something everyday that makes me happy while also having such a positive impact on the lives of others!

While most artist seem to have a style they prefer to do, I prefer a specific subject matter! That subject being animals and nature! Whether it be a portrait of your dog or a traditional owl there is nothing I enjoy tattooing more than animals and nature. Some clients ask me if there are styles I do enjoy more than others and I would have to say Realism, illustrated realism, Watercolor and abstract would be the ones I enjoy the most

Shaun McNabb

I was poor growing up, a troubled teen that followed me to the adult world and was in and out of prison for a lot of my life. I'm a guy that made a lot of mistakes and decided to turn it around. The only thing constant was tattooing. It saved me in many ways. That's why for me tattooing is everything. I strive each day to be better than the last and pour everything I have into each tattoo.

I'm from Boise, Idaho and have had the opportunity

to tattoo in several states. I love a good challenge and more geared towards larger projects. I love bringing to life tattoos and helping people grow and heal through tattoos. I hope to one day be remembered as one of the greats in this industry. This job for me is a way I can express myself and leave my mark on this world.

Sonia DeBenetti Carlisle

I have been apart of the tattooing industry since I was 15. Drawing custom tattoo designs for friends and local tattoo parlors ignited my passion for this ancient art form. Once I was able, I didn't hesitate at the opportunity to learn the techniques and history. I have been tattooing since 2006.

My techniques and inspiration have stemmed from my love for art. Gaining my Bachelor's in Fine Arts in drawing, illustration, and

art history have allowed me to use my formal skills and combine them worldwide influences to customize my client's tattoos.

I love it all and I love this job! I specialize in realism, portraiture, figurative, historical/cultural tattoos. I love doing just about anything! Greyscale or color.
